Richard: well if it wasn't for Jinty we wouldn't be in this mess

Jinty: it's not my fault! (to himself) i don't even know what happened!

Robert: it was that bloody brake van of yours, "being all sad" you said, and then "oh i just gave it, a little...er push".

Richard: into a load of explosives mind you!

Robert: yea thanks alot jinty

Jinty: (sigh)

(all three engines begin work with text showing up all over the place forming the opening credits where to finish the camera pans up to 3d text saying "Jinty Who" we now pan back down to the engines enjoy some lovely banter while shunting)

Narrator: ah christmas, the time for forgiveness and friendship, love and compassion etc. etc. although, Richard and Robert were none of these towards jinty.

Robert: hey look richard a brake van

Richard: oh look out jinty might blow it up

Robert: then we'd have to go again

Vicarstown Station Master: er excuse me ? but what are you lot doing here

Robert: er.....

Richard: (clears throat) we're here to make sure all christmas deliveries from the mainland go smoothly, such as fresh empty coaches for that diesel coming in.or that load of box vans full of christmas puddings...i think we got things covered here sir

Vicarstown Station Master: er but does the fat controller know you're here

Robert: Oh yes of course he knows sir (shifty look)

Vicarstown Station Master: Alright then back to work!

Richard: wow that worked!?

Vicarstown Station Master: What's that?

Richard: er nothing...sir!

Vicarstown Station Master: oh by the way could one of you please sort out the harbour please (both richard and robert look at jinty)

Jinty: really....

(cuts to jinty entering the harbor and it's a bit of a mess)

Jinty: oh...for F@#* sake!

(bear rushes past honking to cover up jintys voice)

Narrator: Jinty worked and worked till the harbour was organised, then jinty thought it was time to get up to mischief!

Jinty: la la la la working hard everyday to work rest and play la la la (tardis noise) but today i think i'll play aye?

box man (fourth doctor): silly old girl why have you transformed into a...hum...a...railway tardis? Well i guess it must be the dimensional shift through time that altered the the inner dimensions....or something.

Jinty: owwww shiny!

box man: ah...oh Hello there my name is th....

Jinty: box man!

box man: box what?

Jinty: what is this thing?! it looks like an old police box...well it is though but it looks different

box man:er (clears throat) hum well this is a time machine, it travels in time! ...of course it does, but it normally doesn't look quite like this though it seems to fit your gauge though?!

Jinty: can i play with it!

box man: no! why would i let you do that?

Jinty: hummmm.....bored now! bye! (puffs away)

Box man: what a strange engine...that can talk...hum...? well i'd better explore this dimension further aye!

Narrator: jinty continued with his work for a little while, when he saw a line of standard vans that bugged him so.

Jinty: well that's everything besides those trucks which are on the wrong line (a steam engine's whistle)

Jinty: oh no that sounds like robert...i think?

(biff's trucks into tug dock)

Jinty: there!

James: Where is that jinty?

Jinty: right here!

James: oh hello...do you have the shipment of decorations for the main line in yet?

Jinty: what did they look like?

James: er i was told standard red vans, anyway shouldn't you know?!

Jinty: well they kind of went swimming!

James: (eyes shrink) WHAT!,....Oh you can't be serious, i travel the length of the island for these vans and...! (rambles)

Jinty: don't you worry james i can fix it!

James: how could you possibly do that??!! (looks confuzzled)

Jinty: (to himself) oh you know just some casual time travel (small evil chuckle)

(jinty approaches the tardis)

Jinty: hum if only he'd left it open

(doors open)

Jinty: WOOHHAAAAAAOOWWWWWWW (realisation that the tardis has become telepathic)

(music from "the snowman" plays (the bit with clara seeing the tardis))

Jinty: oooo shiny buttons! mmmmm. oh look a lever! and squidgy stuff! gee dis is sum gud stuff

(the tardis turntable stops facing the door, it then closes)

Jinty: right on to the big problem, how do i fly this thing

(Scanner screen slides over to jinty)

Jinty: humm (thinks the digits) ok and go!

(time travel sequence)

(Jinty has traveled to the the video here: <https://www.youtube.com/watch?v=OWEPYtvVUJQ>)

(jinty looks at scanner screen)

Jinty: oh this is heavy! 1955 thats no where close to 10 minutes ago! darn!...well better go explore a bit while i've got this thing.

(jinty exits tardis)

Jinty: oh brendam docks from back in 1955!

(see's edward working)

Jinty: hey there's edward!

Edward: (working humming sounding a bit like edward's theme but out of tune)

Jinty: hello there

Edward: (humming is interrupted and followed by dialogue) oh hello i didn't know the fat controller bought a jinty?

Jinty: well he did but didn't if you taken my meaning anyway i just wanted to ask what your er...what ur day was like?

Edward: well i just had a strange man with a long scarf tell me about a contraption called a calculator? he said an engine would come and ask about it which then must be you?

Jinty: did he say a time?

Edward: he said to tell you of a calculator from the year 2015 a device to solve a problem of inaccurate calculations

Jinty: hum ok...did he happen to say a date?

Edward: well 2015 could be a date? or at least a year?

Jinty: well i've got to go edward

Edward: oh could you do me a favour before you go please?

Jinty: alright what you need doing?

Edward: just shunt those coaches for me please i'm in a hurry you see

Jinty: ok fine!

(events of the video occur)

Edward: see ya jinty i've got these vans to deliver

Jinty: see you round! (then to himself) very soon infact...right back we go...er i mean forwards...oh whatever

(jinty backs into tardis)

Jinty: (while doing a full rotation of the tardis turntable) right 2015 here i come(scanner read's 1985 then becomes static)

(tardis landing sound)

(jinty complete's his rotation round the tardis to then come out facing out the tardis)

(he is where he is seen during the video)

Jinty: ah 2015...er that's not what i was expecting...

(jinty has arrived on a stormy day (just a drizzle)(the last bit) where jinty is parked he see's diesel begging to push explosives)

Jinty: hey what's that diesel doing?

Diesel: (quietly) that darn engine...or whatever he is always getting me doing the dirty work.

Jinty: wait is that richard?

Richard: stupid stupid stupid

(jinty approcces with caution)

Jinty: hey buddy (reassuring)

Richard: go away jinty i just want to be alone!

Jinty: (see's diesels explosives) richard come with me for a second

Richard: (sniffs like he was crying) ok

(jinty pulls richard away when diesel is begging to back down)

Diesel: (when he runs away in the video) and i'm out of here...

Jinty: so i got to do something you just wait right here

Richard: alright (another sniff)

(jinty leaves to get in the tardis)

(the station explodes)

Richard: wow...wait hold on that's it!!!!

(jinty enters tardis)

Jinty: wow...heavy!

Jinty: right! lets get to the proper time shall we (directed to the tardis)

(time travel bit is interrupted by a crash!)

Jinty: whoaaaaaaaaaaa...(looks at scanner) dimensional oscillator engaged? oh i just wanted to travel in time not through different dimensions!...battle stations! (mumbling) er that one and that one push those and that one too and the handbrake!!!! come on slow down please come on stopppp....(straining) aaaahhhhh (breaths out) few..... right the scanner's broken so let's see where we are ha?

(jinty exits the tardis and with a flash he and the tardis changes (this is the Tomy Dimension))

Jinty: (short scream) what?? what is this thing on my smoke box (gasp) is...oh i can't be...a face! hold on where am i? (jinty spots gordon) let's ask...er the engine that looks like gordon?!(trying to say the right thing).

Jinty: hello!?

Gordon: hello jinty! (dismissive)

Jinty: so er what you doing?

Gordon: what am i doing...well i'm waiting for you to collect my coaches (fade)

(the second bit from this video begins: <https://www.youtube.com/watch?v=46qvtYkcbMg>)

Gordon: i'm not happy

Duck: i know it's boiler ache

Gordon: it's not boiler ache!

Henry: of course it is! that water is bad your boiler must be full of sludge! have a good wash out, you'll feel a different engine

Gordon: don't be vulgare!

(gordon backs onto the coaches, jinty comes alongside)

Jinty: here are you coaches gordon...

Gordon: humf (steams away)

Jinty: well back to the tardis...as much as i like this face i need to get out of here the odd proportions are scary

(cuts to jinty steering at the tardis, the tardis is too small)

Jinty: oh bollocks!

tardis starts to flash and starts dematerialising but has gone back to normal size

Jinty: well that works (a sound like jinty is jumping into the tardis)

(tardis is wobbling about)

Jinty: ahhrrrrrr what now you silly tardis!

(scanner screen conveniently slides over to him)

Jinty: hernby?...no hornby!...world?

(The relief)

(The tardis settles)

Jinty: ok may as well check this dimension out too!

(jinty exits and a similar thing happens but the tardis goes invisible)

Jinty: ah nuts!...oh look some coaches...pretty!

(the reliefs opening begins)

Jinty: oh no it's thomas!!

Thomas: (dum de daring/humming)

(tardis doors open but the outside is still invisible)

Jinty: oh

(tardis doors close on the coaches which derail)

Jinty: ahrrrrr why aren't you more accurate with time you silly machine!

(time montage)(music playing is "i am the doctor")

(another bit of transdimensional travel until we reach 2015 but not as hoped)

Jinty: ok tardis this had better be the right one! (looks at scanner) well the year is right)

(jinty exits the tardis)

Jinty: (short scream)

(jinty is on curtis' desk who is looking down at his desk)

Curtis: yes mum i'm doing my homework! (closes door and sits at desk) (sigh) Maths...i hate MATHS!! (looking disinterested) (sigh) well i'd better do it now or i'll forget about it!... anyway its only...linear equations...and algebra!...oh come on! well better get the calculator out! (looks under desk jinty jumps down on to maths textbook as he now has rubber bands on his wheels to move without rails)

Jinty: he he he ha

Curtis: ok found the workbook but where are you, you silly calculator!

Jinty: oh shit!

(jinty backs up behind the textbook and workbook stack)

Curtis: there's the simple one and there's the, brick!

Jinty: 2 calculators?

Curtis: (begins to try a solve a maths problem, starts using the brick like calculator)

Jinty: here's my chance!

(jinty scurrys up to the simple calculator to grab it when curtis looks down at him)

Curtis: (mid way through a maths problem(sees jinty) (freezes) er

Jinty:hi?

Curtis: what!

Jinty: can i borrow this please?

Curtis: er i guess (confused)

Jinty: yea this i awkward can you put me and this calculator into the tardis up there?

Curtis: (looks confused) sure....?????

(curtis picks up jinty)

Jinty: your hands are cold

Curtis: what are these things on your wheels??...rubber bands?

Jinty: yea i saw now rails so i put these on

Curtis: how did you even...oh never mind(places them both in tardis) there you go!

Jinty: thank you large person

Curtis: hey!.. don't you call me fat!

Jinty: i mean bye!! normal human...

Curtis: ok...well i've got work to finish so good bye!! (shuts the tardis doors)

Jinty: (to himself) you definitely do!

(cuts to jinty placing the calculator in the under part of the tardis)

Jinty: there!

(tardis returns to 1974 december 23rd midday ish)

Jinty: ah i hate mondays!

(bit from earlier begins)

James: Where is that jinty?

Past Jinty: right here!

Richard: fine! but you wait until boxing day...then we can bag the shit out of ya all we want

Jinty: deal! now let's get to the shed
